

To the parents of students

Saxon, September 2025

VELUX MYSTERIES

A slightly mysterious artistic project is being prepared in Saxon, and we would love for you to be involved with it.

This year, the VELUX association is launching a creative experience entitled VELUX MYSTERIES. This initiative will gradually transform our village into a field of artistic exploration. Performances, installations, projections, and other original works will appear in various places starting with Nuit H on October 31, 2025, and continuing throughout the year until the Summer of 2026.

These creations will be inspired by stories, memories, dreams, and objects shared by the residents. While children are invited to participate (see attached flyer), we especially want to encourage the participation of parents: your memories, your voices, and your belongings are precious to us.

You can participate by sharing a personal memory linked to an object. It doesn't matter whether it is old, precious, modest, forgotten, or symbolic; what interests us is the story you have with it. You can also share a story, an anecdote, or a family memory. It could be a significant event, a saying that has been passed down, or a lived experience in Saxon or elsewhere, by a parent, a grandparent, an aunt, an uncle, a neighbor, or yourself.

All stories are welcome, whatever the language used. If you wish, your participation may remain anonymous.

To send us your story, you can email it to info@vent-lumiere-saxon.ch, or send a written or voice message via WhatsApp or Signal to 076 685 92 21.

By taking part in this collection, you are contributing to the preservation of oral heritage and to the creation of a collective, sensitive, and living work. We look forward to discovering your stories and, together with you, shedding new light on the mysteries and inhabitants of our village.

With our warmest regards,
The VELUX Collective
